

COMPANY RUN 2019

The City of Aachen is not shy to promote a healthy lifestyle and this was demonstrated by the organisation of a Company Run which involved no less than 8000 plus employees and colleagues from 575 local and regional firms taking part.

Frankenberg proudly fielded and sponsored a great team from the entire company. A total of 37 runners from all areas of our operation including Admin, Executive and Operational levels. Participating departments included Purchasing, Admin & Management, Hotmeal Assembly, Kitchen Production, IT, Tech, Work Prep, Product Development, H.R. and Q.A. took part.

There were three distances of 4.8km, 7.3km or 9.6km and the Frankenberg Family was featured on all three.

Our team proudly sported specially designed running shirts that featured a running version of our iconic Frankenberg ladle, a souvenir each participant could keep as a memento long after the sore feet had recovered!

With special thanks to our own Isabelle who organised our team, she and all of us were happy that the event was blessed by perfect weather conditions as the pictures show with only some light rain during the last run.

Each participant who managed to cross the line received a Finishers shirt, a "Streuselbrötchen" and alcohol-free beer.

This was the first year for the event in Aachen and another is planned for 2020 where Team Frankenberg is targeting to support this with a 50 strong team. We're proud of our team and looking forward to that!
